SOWING WINDOW

Recommended Sowing Period
Potential Sowing Period depending on seasonal conditions

LG Anarion was the first clubroot resistant variety to be listed in the UK which combines TuYV, and Pod Shatter resistance along with RLM7 resistance to phoma. LG Anarion is nationally listed and has been through internal and independent trials in the UK for several seasons. LG Anarion has very good autumn grown and exceptional winter hardiness. A shorter stiffer plant type with very strong spring vigour, from internal scoring Anarion has solid resistance to both LLS and Phoma.
