

## LG DIABLO

BREEDERS REFERENCE: LGBU13-1624-A TRIAL STATUS: UK RECOMMENDED PARENTAGE: OVERTURE X SANETTE

Fully approved dual use spring barley with proven on farm perfomance and end user appeal

PRING BARLE

## **KEY STRENGTHS**

Fully approved dual use variety for brewing and malt distilling

AHDB RECOMMENDED

Non GN-producer

High specific weight

Good agronomics for use as a feed variety

High tillering capacity for suitability in a blackgrass situation

Looking at this chart, the best return on investment is Treatment 3 – a split rate nitrogen application of 150kg/ha with a single PGR and a split fungicide programme.

However, in a season of drought, judgements must be made regarding appropriate PGR rate and if a 2 spray fungicide programme is both beneficial and cost effective."

All data is from the AHDB Recommended List 2024/25 database. See https://ahdb.org.uk/rl for full dataset. On the 1-9 scales, high figures indicate that the variety shows the character to a high degree. (e.g. high resistance). Agronomic features marked with \* are breeders perspective.
